## TEST PREPARATION

### The Edge's Test Preparation Timeline

“

I just got my result back for the October SAT, and I managed to score 1500 this time! I had 50/52 for reading, 39/44 for writing, and 56/58 for Math. Thank you so much for your help! I can finally cross that off my college checklist now."

- SAT Student

The College Board has announced the SAT will change from a paper-and-pencil test to a computer-based exam internationally from March 2023.

### What will stay the same?

- Scoring
- Test Location
- Exam Skills
- Test Structure
- Practice
- Frequency of Test

### What are the changes?

- **Number of Sections:** There will be two sections only, the Reading & Writing Section and the Math Section. Each section will consist of 2 modules. It will have a total of 4 modules.
- **Test Length:** The paper-and-pencil test has 4 sections which last 3 hours including the break. The new test will last 2 hours and 14 minutes, plus a 10-minute break between sections.
- **Test Flow:** The test questions will not be in order and the reading passages will be significantly shorter. It will change to be a two-stage adaptive test. The results in the first module of each section will affect what students receive in the second module.

### What are the benefits?

- More time per question
- Shorter reading passage
- Use of calculator

### What are the risks?

- Same level of difficulty
- More diverse genres of reading required
- Each mistake is much costlier

I really enjoy learning at The Edge. I've enrolled in a Math class with Leo and an English class with Robyn. The way they teach is just phenomenal. For example, in Maths, I might have some difficulties understanding a topic, but Leo could always help me understand very easily and concisely. Robyn helps me a lot in improving the structure of my essays. I've always struggled to format my essays, but Robyn always has an answer to my problems. As soon as you sit in their classes, time seems to speed up so quickly it doesn't feel like an hour!
