Student Reviews on Collin Joseph Law

Parents of P.L., 2024 Student, CIS (Hong Kong)

“Reflecting on my daughter’s college application journey, we realize that the overall experience is just as important as the outcome, as the process can be long and challenging. We feel fortunate to have Collin guiding our daughter through it. Over the past three years, Collin has demonstrated exceptional professionalism, consistently offering valuable advice while remaining encouraging and supportive. He embodies a team spirit and has been a reliable partner for our family. Thanks to Collin, this stressful journey has been much easier for both our daughter and us as parents. A smooth and wonderful process will undoubtedly lead to brilliant results. I will certainly recommend Collin to my friends’ children in the future.”

“As a Hong Kong and U.S. university applicant, I couldn't have navigated the application process successfully without Collin's support. While many view application consultants as guides for personal statements and CVs, Collin offers much more. He helped me plan ahead to maximize my summer opportunities, provided encouragement during tough times, and took the time to understand my interests. Collin is ambitious but not overbearing, making him the ideal consultant for motivated students aiming to excel. From selecting essay topics to choosing majors, he ensures each student’s application reflects their unique personality. I am incredibly grateful for his mentorship and believe many others share my sentiment.”

“I am so grateful for your time, your encouragement, and your professional advice given to my daughter. We are so blessed to have you standing by her to support her going through the whole application cycle. I cannot imagine how we would be without your care and attention. Thank you so much again! Truly from the bottom of my heart.”

LSE Law dual-degree with Columbia Law School

“I was accepted into Columbia Law School! LSE Law School offers a dual-degree with Columbia, whereby I would graduate early from LSE after only two years then pursue a JD at Columbia for two years. After a competitive application process, I was accepted! Thanks to Collin so much for all the help provided on my personal statement -- I could not be more grateful for it. I look forward to bringing you more good news soon!”

University of Chicago

“I was admitted early decision II to the University of Chicago, but I did not submit test scores. I can’t thank Collin more for his help. It was really nice to have someone who knew what they were doing getting me through the entire admissions process!”

University of Cambridge

“Thank YOU so much for all the hard work, all the assistance, and patient guidance to my daughter in the past 2 years! It’s amazing! With your help, her aim was put through and now she is in the University of Cambridge. Just to give you an update, though it has been a busy first term, she is happy about the school life there. I would like to ask if you can be the consultant for my younger son? Three kids..... Thanks to The Edge!”

“Thank you very much to Collin for his efforts throughout my application to boarding schools! I have been admitted by Exeter and I am really grateful for his great help in my interview preparation and helping me revise my essays. His advice on my essays (like the example of my wireless power and the heuristics he suggested) is really significant! Had not he helped me revise my essays for Exeter and prepare for interviews, I know I would not have been admitted to Exeter. Also, thanks a lot for telling me how to sit when there is no table between me and the interviewer. Actually, in most of the schools I went to there was no table between us. And because he let me prepare for that situation, I was not much surprised by this in the interview. In addition, the reason why I would like to learn German and Russian, which we thought together, also helped me a lot.”
