Mathematics, SAT, ACT & SSAT

BSc Newcastle University

Student Reviews on Kieran

Parent of M.S., 2024 SHSAT Math Private Lesson Student, HKIS (Hong Kong)

“My child really enjoyed Kieran. How does scheduling work?”

N. T., 2024 IB MYP Math Private Lesson Student, Malvern College (Hong Kong)

“After almost a month’s lessons with Mr. Kieran, my daughter is now more confident in Math (though she knows she still has much room for improvement). Her school started last week, and she raised her hand to answer the Math teacher’s question for the first time ever. And she got the answer right. She said this was the first time in a Math lesson that she understood the teacher’s question. I guess both sides have adapted to each other’s style and I thanked Mr. Kieran for his patience with my daughter.”
